AirScape | 200 FL rounds

(a) The video is egocentric/first-person perspective, captured from a camera mounted on a drone. A yacht is sailing toward the right side of the frame. The drone, hovering at a low altitude over the sea and maintaining its gimbal camera angle level with the yacht ahead, slowly rotates to the right to keep the yacht in the center of …

(b) The video is egocentric/first-person perspective, captured from a camera mounted on a drone. A vehicle is driving on a road in the Gobi Desert towards the drone. The drone flies slowly forward while maintaining its flight altitude and gimbal camera angle to get a closer perspective of the vehicle.
